

Bella *Baloubet*

RST International BVBA Sport Horses

Dear Breeder,

We are proud to present our 2010 stallion brochure and are pleased to offer you the opportunity to breed with the talented young stallion Bella Baloubet.

In addition to the growing success of Bella Baloubet in the showjumping sport, the foals of our young stallion are leaving a great impression on breeders.

Australian rider Amy Graham is now based in Verona, Italy and competes throughout Europe with Bella Baloubet and the rest of RST International's team of horses .As he gains more experience

Bella Baloubet continuously builds on his natural athleticism and jumping ability so increasing his reputation and improving the value and importance of his progeny around the world.

By offering you Bella Baloubet who is from the best European bloodlines, we hope to welcome you as our customer for this years breeding season.

Kindest regards,
RST International BVBA

Born 10/06/2001 – Baloubet du Rouet x Landadel

Bella Baloubet is a young stallion who has already established himself as an exciting athlete. He was the only stallion of his year to be gain Approved Stallion status by the Anglo European Studbook and since then placed in a number of young horse classes in Europe. He is now competing in CSI 3 and 4 star 150 Grand Prix as he further develops as a stallion of excellent jumping capability.

Bella Baloubet's sire is the triple World Cup Champion and gold medal Olympian – Baloubet du Rouet, by one of the greatest jumping horses of all time, Galoubet A, who was by one of the four dominating sires of the twentieth century - Almé.

His dam Kapitola is by Landadel, the only stallion to sire World Cup finalists in both jumping and dressage. Landadel is the best son of Landgraf – another of the four great sires of modern times.

His grand-dam is the full sister to Capitol – one of the four top jumping sires as established by examining the international results of 2515 jumping horses by the prestigious French publication, Monneron 2007–2008.

This is an exciting opportunity to breed to an athlete who is also a genetic gold mine.

Semen will be available fresh and frozen.

Please contact us for a transported semen contract containing further details.
